

## Tesco and Sainsbury's Vouchers

Thankyou to all our parents and children who helped us to collect vouchers last year. The response was incredible. We collected around 80,000 Tesco vouchers and over 70,000 from Sainsbury's. The Tesco vouchers have enabled us to enhance our ICT provision. We have bought some new cameras and child friendly video cameras as well as some 'visualisers' which enable us to use ICT to support the teaching of writing. We have used the Sainsbury's vouchers to purchase a range of sport equipment which will be put to good use during break times and PE lessons. I will let you know when it is time to start collecting again!

## Breakfast Club

We provide a breakfast club for pupils each morning in our dining hall. Breakfast club is open from 8.00 in the morning and parents may drop their children in school from 7.50. Please don't bring your children any earlier than that as there is no one available to supervise them.

Breakfast is only served up until 8.30 in the morning so please ensure your child has arrived by this time.

## Phonics Meeting

Thankyou to all our new parents who attended our phonics meeting last night. I hope you have been practising your letter sounds and actions already! It was good to see so many supportive parents eager to help their children to learn.

## Earrings

For safety reasons we ask that children don't wear any earrings for PE lessons. The best advice is that they don't wear them to school at all on PE days to save the child having to take them out. If your child has recently had them pierced and they can't be removed, please let the class teacher know.

## Healthy Schools

As part of our Healthy Schools celebrations last year, many pupils from Reception up to Year 6 helped to produce some artwork in the form of mosaic tiles. This mosaic will be on display at Ferens Art Gallery from 28th September until 2nd October. I hope that you and your children will be able to call in and see it.
